

Follow-up Notification to person in parental relations and staff pursuant to Section 409-h of the State Education Law

Dear Parent, Guardian and School Staff: January 19, 2005

New York State Education Law Section 409-H effective July 1, 2001, requires all public and nonpublic elementary and secondary schools to provide written notification to all persons in parental relation, faculty and staff regarding the potential use of pesticides periodically throughout the school year.

The Saratoga Springs City School district did not apply, or hire a contractor to apply any pesticides within the school district during the time period of September 8, 2004- December 31, 2004.

If a pesticide were to be used, those registered would have received 48 hour written notification prior to the use of the pesticide.

In the event of an emergency application necessary to protect against an imminent threat to human health, a good-faith effort will be made to supply written notification to those on the 48-hour prior notification list.

If you have not yet registered to receive 48-hour prior notification of pesticide applications that are scheduled to occur within the Saratoga Springs City School District, please complete the form below and return it to: **Thomas Clark, Director of Facilities and Operations, 3 Blue Streak Blvd., Saratoga Springs, NY 12866:**

48-hour prior pesticide Notification

Your Name: _____

School: _____

Address: _____

Daytime Phone: _____ Evening Phone: _____

Please note- this will only register you for notification for the 2004 -2005 school year. You will need to register each year.
