

Pass/Fail in GradeQuick

If your class is Pass/Fail and you don't use GradeQuick at all, then you will have to create at least one assignment for the marking period. You can put 100's in for passing and 64's in for all failing (just so you know which letter to put in the final grade column at the end of the marking period).

Name	Quic	*			Avg	Grade
Long Name						Marking Per
Marking Period		1				
Category		**				
Date		9/9/				
Weight						
Possible		100				
1.	SASHA	100			100.0	P
2.	JESSE	64			64.00	F
3.	BRITTAN	100			100.0	100

Once you do this, go to the last column on the right (the GRADE column), double click on a grade and change it from the number to P for pass and F for fail. Letters MUST BE CAPITALIZED.
