Please note:
refreshments will not be
provided. Participants will
be released for lunch on
their own, or may bring
their lunch.

Description: Participants will learn concepts and the process for conducting Functional Behavioral Assessments (FBAs) and developing Behavior Intervention Plans (BIPs) for children who are not experiencing behavioral success. Day one will develop foundational concepts, with a focus on simple FBAs/BIPs. Day two will build upon the concepts covered in day one, with a focus on complex FBAs/BIPs to address multiple behaviors, more severe behaviors, and behaviors across multiple settings. Case studies including sample data sets will be utilized to illustrate concepts.

This is an opportunity to have a new team trained on the FBA/BIP process, or to enhance the skills of members of existing student intervention/support teams.

Intended Audience: Desired team size is 4-5 people. Teams should have representation including an administrator/supervisor (either district or building-level), a special education teacher, a pupil personnel services representative (social worker, school psychologist, school counselor) and others, as appropriate.

Districts identified or at risk for SPP Indicator #4—Suspension of Students with Disabilities will be given priority registration status.

**Registration: Please complete one registration form including all team members. See next page.
Fax registration form to (518) 464-3975**
